To whom it may concern,

The horse Com Bella 20-3554 (micro chip 985141001477877, passport no 75200211S203554) underwent arthroscopic surgery of the left tarsocrural joint at the Evidensia Helsingborg Equine Hospital 14 march 2021. A medium sized osteochondrosis dissecans fragment was removed from tibias intermediate ridge. No other abnormalities were detected.

The prognosis for full athletic functioning is considered excellent with regards to the described lesion.

Mads Kristoffersen, leg vet, CertES(Orth), DipLECVS, MRCVS
